DESCRIPTION

This is a full-time position whose primary responsibilities will be .NET web application developer with extensive experience developing both server side (C#, MSSQL) and front end (HTML5/CSS/JS) functionalities. This is a full-time exempt (salaried) position Send your resume to HR@noria.com

ESSENTIAL JOB FUNCTIONS:

- Proficient and proven experience in: C#, PHP, HTML5, CSS3, JavaScript, JQuery, Angular, JSON, and XML.
- Proficient experience in the following Microsoft technologies: .NET/ASP.NET (MVC/Web Forms/AJAX), MSSQL Server, Entity Framework, and LINQ.
- Strong experience in Cloud development/administration (Azure, AWS) and building/maintaining robust SOAP, WCF, Web-API, and REST-based web services with versioning.
- Solid understanding of object-oriented design, automated unit testing, and continuous integration.
- Experience with Agile development environments (Scrum, XP, etc. - Scrum Training and/or Certification a plus).
- Strong desire to take initiative, self-organize, collaborate, and innovate.
- Excellent written and verbal communication skills.

EDUCATION

- A Bachelor's Degree in computer Science, Software Engineering, or a closely related technical Field
- Minimum five or more years of professional software development experience

CERTIFICATIONS AND EXPERIENCE

- Microsoft Certified Professional (MCP), Microsoft Certified Software Developer (MCSD), or Microsoft Certified Application Developer (MCAD)
- Level I Machinery Lubrication Technician (MLT I)
- Significant experience with mechanical equipment. Knowledge of machines and tools, including their designs, uses, repair, and maintenance.
- Significant experience with lubrication, oil analysis, Tribology and/or contamination control
- Spanish speaking a plus.

Note: Nothing in this job description restricts management's sole right to assign or reassign duties and responsibilities to this job at any time.
